

CLAIM AMENDMENTS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (currently amended) A coating composition comprising:
 ~~(a) a pigmented solventborne paint pack which can be made into a waterborne coating composition~~ comprising a water-in-oil emulsion comprising:
 - i) a solution in an organic solvent of a polymer having functional groups and hydrophilic groups; and
 - ii) a waterborne pigment dispersion comprising pigment dispersed in water in the presence of a pigment dispersant, the aqueous pigment dispersion itself being in dispersion in said solution i), and
 (b) an aqueous phase,
 wherein the pigmented solventborne paint pack is dispersed in the aqueous phase.
2. (currently amended) The coating composition of A paint pack as claimed in claim 1 in which the functional groups are hydroxyl groups.
3. (currently amended) The coating composition of A paint pack as claimed in claim 2 in which the polymer has a hydroxyl value of 5 to 500.
4. (currently amended) The coating composition of A paint pack as claimed in claim 3 in which the polymer has a hydroxyl value of 50 to 250.
5. (currently amended) The coating composition of A paint pack as claimed in claim 1 in which the hydrophilic groups are carboxylic acid groups or amine groups.
6. (currently amended) The coating composition of A paint pack as claimed in claim 5 in which the hydrophilic groups are carboxylic acid groups and the polymer has an acid value of 20 to 250.

7. (currently amended) The coating composition of A paint pack as claimed in claim 5 in which the hydrophilic groups are amine groups and the polymer has an amine value of 20 to 250.
8. (currently amended) The coating composition of A paint pack as claimed in claim 1 in which the polymer is a vinyl addition polymer, a polyester, a polyurethane, a mixed polyester-polyurethane or an epoxy polymer.
9. (currently amended) The coating composition of A paint pack as claimed in claim 8 in which the polymer is a vinyl addition polymer, a polyester, a polyurethane or a mixed polyester-polyurethane.
10. (currently amended) The coating composition of A paint pack as claimed in claim 9 in which the polymer is a vinyl addition polymer.
11. (currently amended) The coating composition of A paint pack as claimed in claim 10 in which the polymer has a theoretical glass transition temperature (Fox T_g) of -30 to 80°C.
12. (currently amended) The coating composition of A paint pack as claimed in claim 11 in which the polymer has a theoretical glass transition temperature (Fox T_g) of -10 to 50°C.
13. (currently amended) The coating composition of A paint pack as claimed in claim 1 in which the polymer has a number average molecular weight as measured by gel permeation chromatography of 700 to 10,000.
14. (currently amended) The coating composition of A paint pack as claimed in claim 13 in which the polymer has a number average molecular weight of 1,000 to 4,000.

15. (currently amended) The coating composition of A ~~paint pack as claimed in claim 1~~ in which the polymer has an acid value of up to 50.

Claims 16-24. (canceled)

25. (currently amended) A coating composition comprising:

(a) a pigmented solventborne activated paint pack ~~which can be made into a waterborne coating composition,~~ comprising a water-in-oil emulsion comprising:

i) a solution in an organic solvent of a polymer having functional groups and hydrophilic groups;

ii) a waterborne pigment dispersion comprising pigment dispersed in water in the presence of a pigment dispersant, the aqueous pigment dispersion itself being in dispersion in said solution i); and

iii) a crosslinker which is dissolved in the organic solvent, and

(b) an aqueous phase,

wherein the pigmented solventborne activated paint pack is dispersed in the aqueous phase.

26. (currently amended) The coating composition of A ~~solventborne activated paint pack as claimed in claim 25~~ in which the crosslinker is a phenol formaldehyde, melamine formaldehyde, or polyisocyanate.

27. (currently amended) The coating composition of A ~~solventborne activated paint pack as claimed in claim 26~~ in which the crosslinker is a polyisocyanate.

Claim 28. (canceled)
